Abdalla Misbah

Senior Software Engineer & Team Lead | Node.js • Python • Java |
Backend & Microservices | Fintech
Riyadh, Riyadh, Saudi Arabia

Summary

I am a Senior Software Engineer and Technical Leader with extensive experience designing and scaling microservice-based platforms in fintech and EdTech. Over the past years, I've led projects across payment solutions, settlement systems, and AI-powered educational platforms, combining deep technical expertise with strong project management skills. My work spans backend engineering with NestJS/Sequelize, frontend development with Next.js, and DevOps with Kubernetes, Docker, and CI/CD pipelines. Beyond coding, I focus on architecture, system reliability, and data integrity, while mentoring teams and driving projects from concept to delivery. Passionate about innovation and aligned with Vision 2030, I thrive at the intersection of technology, leadership, and impact.

Experience

Sunna AlTamuz - Digital Bank Startup
Senior Java Software Engineer
March 2026 - Present (7 months)
Riyadh, Saudi Arabia

Work as part of the middleware/backend integration team building a modern digital-banking platform for the Saudi market, with responsibility for integration between digital channels, core banking, payment systems, and domain platforms.

Rasid Payments | رصيّد للمدفوعات
2 years 6 months

Team Lead
October 2025 - February 2026 (5 months)
Riyadh, Saudi Arabia

Led a team of 6 backend engineers delivering high-availability Node.js services for financial systems.

Senior Software Engineer

September 2023 - February 2026 (2 years 6 months)

Saudi Arabia

Engineered backend services for a SoftPOS and payment aggregation platform using Node.js, NestJS, REST/GraphQL APIs, PostgreSQL, Redis, Kafka, and containerized deployment.

MAMAW ICT

Software Engineer: Node, Angular, React and ODOO Developer

March 2017 - February 2024 (7 years)

Khartoum

I am desinging, developing web applications using Javascript technologies (Nodejs, Express, MongoDB, Angular and REACT).

I am also developing and customizing ODOO modules, especially HR modules (Employees, Payroll, Loans, Overtime, ...)

Musafer

Software Architect

February 2019 - April 2023 (4 years 3 months)

Khartoum

Designed and delivered a Master Data Management platform for Zain Telecom using microservices and Kubernetes, supporting large-scale subscriber data processing.

Nile Center for Technology Research (NCTR)

8 years 9 months

Software Engineer

August 2012 - February 2017 (4 years 7 months)

Khartoum

I design, developed and test software solutions using c/c++, JAVA, and Android.

Quality Assurance Engineer

June 2011 - August 2012 (1 year 3 months)

Khartoum

Try to make things not work so the developer can catch errors before they occur. It's my job to anticipate a problem and think of any bone-headed thing that a user can do to a product.

- * Write test plans from the requirements and specifications.
- * Use bug tracking system to report bugs
- * Analyses test results
- * Reports results to the QA manager

Hardware Engineer

June 2008 - June 2011 (3 years 1 month)

Khartoum

Hardware engineer, including Electronic system design, implementation, and verification.

University of Khartoum

Teach Assistant

March 2008 - August 2008 (6 months)

- pspice lab (electronic design)
- control lap (matlab).

Khartoum Refinery Company

Instrumentation Engineer

October 2007 - March 2008 (6 months)

Instrumentations such as (temperature sensor, pressure sensor, speed sensor, level sensor, ...) installation, mentainance, and troubleshousing

Education

University of Khartoum

Bachelor of Science (B.Sc.) with honor, Electronics and computer systems · (2002 - 2007)

University of Khartoum

B.Sc. Electrical & Electronics Engineering (1st Class Honours)
